

Fairy Box is a national Scottish charity which exists to help support ill children in hospital, their families, and the medical and nursing staff involved in their care. We offer the following support programmes:

Fairy Box - a themed gift box which sits on children's ward so that it is available at any time of the night or day to provide an ill child with a small gift when they need cheered up. This gift is theirs to keep. Parents or carers can choose a gift for their child or nursing or medical staff can help the child choose a gift. Fairy boxes exist in Dundee, Glasgow, and Aberdeen.

Fairy Box Kiss - a special thank you from an ill child to someone such as a Special brother or sister, mum or dad, grandparent, family friend, nurse or Doctor who has been especially supportive of them when they are ill or recovering from their illness.

New Programmes available soon:

Fairy Box Tales - trained and vetted story tellers who provide one-on-one story telling for ill children in hospital to lift their spirits and give parents much needed short break respite.

Fairy Box Haven - an holistic programme of alternative and complimentary therapies for parents, nursing and medical staff to help relieve the emotional and physical stress of supporting a seriously ill child. Includes some therapies which may be suitable for children.

How can Fairy Box help my child in hospital ?

If you have an ill child in a hospital where a Fairy Box currently exists please ask the ward staff about the Fairy Box. If you have an older child or a young teenager with a special request please let us know and we will do our best to help.
